PROFILE

A Back-end developer seeking an opportunity to serve the organization with commitment by using my skills and capabilities and enhancing them while contributing to the organization's goals.

PROJECTS

ONLINE CHATTING APP

Technologies Used: JavaScript, NodeJs, ExpressJs, MongoDB, Socket.io, etc.

- Developed a real-time chat app for seamless user communication.
- Built a dynamic UI with ReactJs.
- Implemented NodeJs and ExpressJs for server-side handling.
- Used MongoDB for user data and chat history.
- Integrated socket.io for instant messaging and updates.
